

The Murada infrared heater is by far the most powerful radiant heater in Welltherm's portfolio. The combination of a 2,500 watt gold tube and extra-large reflector ensures remarkable heat output.

This model is therefore ideal for large patios/balconies, restaurants and industrial facilities.

We advise combining this radiant heater with the Vida dimmer. This provides greater control options by adding an infrared remote control as well as convenient operation via the smartphone app.

Murada

Technical Data:

Remote control:	No
App control:	No
Power supply:	1/N/PE 230 V
Frequency:	50 Hz
IP rating:	IP 65
Protection class:	I
Heating technology:	DAZEX
Connection cable:	1,850 mm, black
Schuko plug:	Yes
Power:	2,500 W
Current:	10.9 A
